1. Introduction

The CRULP Burushaski Phonetic keyboard v1.0 is developed to support Burushaski characters to be typed easily along with Urdu characters. This keyboard is based on the CRULP Urdu Phonetic Keyboard v1.1. The layout of the keyboard is same as the CRULP Urdu Phonetic keyboard. The only change is of the additional characters for Burushaski.

Same as the CRULP Urdu Phonetic keyboard it has three faces which are Base, Shift and AltGr(Right Alt or Ctrl+Alt). All the Urdu characters of CRULP Burushaski Phonetic keyboard v1.0 have the same positions as CRULP Urdu Phonetic Keyboard; the additional Burushaski characters are inserted in the available suitable places and are highlighted in blue color in the sample keyboard layout given below. One Burushaski character is added in the base version, four Burushaski characters are added in the Shift version of the layout and remaining characters are added in the AltGr version. These all the highlighted in blue color in sample layout given below. The users of Win 2K, Win XP and Win Vista can use this keyboard.

2. CRULP Burushaski Phonetic Keyboard Layout v1.0
